-WHEELING, VA:-

MONDAY MORNING, JUNE 4, 1865. There is no man so blind as he that will not see, and no man so dishonest as he that, under the garb of a canting hypocrite, writes and publishes base and injutious slanders upon honest citizens, and misrepresents and villifies the party of which circumstances has made him the temporary organ. Our remarks in Friday's paper were applied not to foreign Protestants, or Catholics, or foreign or native born citizens of any party, but to the editor of the organ himself, and were so understood and applied by every reader of our paper, including Wharton bimself, but with his usual characteristics he attempts to pervert them to foreign Protestants. You can't come that game, Jonathan, We did, and do now, charge you with writing and printing, both before and after the election, base standers upon the character of Messrs. Campbell, Mitchell and Knote, and the North Western Bank; and that when you said there was nothing in the obligation of the members of the American Party preventing them from voting for and electing to office foreign born citizens, you wrote a lie and kace it was a lie when you wrote it; and in rewriting and publishing, the statement, you have outraged decency and brought down the indignatian of your own party upon your head. A pretty organ, indeed, you are, not to know the first principles of the party you represent, or, more properly miss-tepresent. Besides, your evil propensities, as we intimated some days ago, will force the America Party to establish a new organ, to represent them with honesty, fidelity and decency.

SLAVE CASE AT COLUMBUS .- We learn by the Journal, that two colored girls were brought before Judge Swan, of the Supreme Court, on Monday morning, by a writ of habeas corpus, to inqure into the cause of their alleged illegal detention by their mister, a Frenchman from New Orleans, en route for Burope. The gitts when interrogated in Court, expressed a desire to go with their master and they were permitted to do so. Judge S. remarking that he hoped this would be decesive of the matter, and that all would acquiesce. The party applying for the writ was tuled to pay the costs of the proceedings. An Interesting Crakeration .- The descen-

dants of Robert Cushman, who came to this country in the May Flower, propose to celebrate the two hundred and thirty-fifth anniversay of his sailing for America at Plymouth, on the 15th day of August next. It is estimated that there are 2,000 of the name of Cushman in this country, and as many more of other names who are descendants of Robert Cushnian.

CHOLERA AT NEW ORLEANS,-The New Orleans papers of the 26th ult. record several very sudden deaths from cholers. Mons. Gordard, the celebrated aeronaut, who was alive and well on the night of the 25th, was a corpse the next morning. Hugh Grant, a well known engineer, and late city surveyor, also died after a few hours illness.

D'Fifty-one Patents were issued from the United States Patent Office during the last week .-Two were for improvements in making paper bags, one for a pin-sitcking machine, and another for an improvement in pill-making machines! THE FARNCH RAMIBITION, -The Paris correspon

differed from these at London and New York, in the fact, that here the intellectual part of the ceremonics were short, purely formal and unmeaning, while the display of brilliant costumes, of gold and velvet, was truly magnificent. Everything in fact was sacrificed to display. The Exhibition, which was scarcely sufficiently odvanced to ment attention from the visitors, formed but a small part of the interest of the scene. The attangements

attention from the visitors, formed but a small part of the interest of the scene. The atrangements for the opening were well and carefully taken, and passed off without accident.

The throne and its canopy, which were of redvelvet and gold, were magnificent, and stood upon the space in front of the grand entrance reserved for the United States. High up above the throne, and attached to the ceiting of the transcut, were four attended to the ceiting of the transcut, while the four attended to the ceiting of the transcut, while a sold the state of the gallery, waved five American fags, while still lower down on the five arches, beneath the gallery and on each side of the throne, were seen the words 'Kints Unis,' with the American coat of arms. In the arch where the throne was erected, the words 'United States' were covered up by the crown and top of the canopy, while at each side at the top of the columns of the arch, the American coat of arms was covered up by a cluster of French colors. The American Commissioners had putposely left out the few objects which had arrived for exhibition, so as to leave the space clear. It may het out the few objects which had arrived for exhibition, so as to leave the space clear. It may here be munifored that the name of France occurs twenty-two times in the grand building. Brightness the United States five, Relgium three, Austria four, and Russia, Saxony, Hanover, Wurtentury and Bavarvia, each one. These names are piaced over the arches, and being equal in extent, indicate the amount of surface allotted to the respective nations named.

The scene at the throne at the moment of open-

ing, was remarkable in many respects. On the throne stood their Majesties, behind them and at their sides, on the platform, stood the Princess their sides, on the platform, stood the Princers Mathide, the Members of the Cabinet, the Pope's Cardinal-Nuncio, and several or the Ladies of Honor of the Empress; at the side ranged like so many statures against the wall of red velver, stood a detachment of this Majesty's body guard, tall, ereot, motioniers, and half covered with bright steel; in front were about two thousand persons in the richest costume imaginable, and which at a distance appeared like a mass of gold, so completely were the coats and chapeaux covered with that material.

In this assemblage the United States was repre-

inat material.

In this assemblage the United States was represented in the following persons:

Mr. Mason, our Minister, and his family; the members of the Legation and their ladies; Mr. McLane, Minister to China.

Colonel Detafield, Capt. McClellan, and Major Mordecai of the United States Army, on their way to the Crimes, General Thomas, United States Army.

Mr. Belmont, Minister at Hasue, Ex-President

Mr. Belmont, Minister at Hague, Ex-President Van Buren, Major Cass, Minister at Rome, Mr Mo-Hae, U. S. Consul at Paris, and by the following Commissioners from the U. States:

Rae, U. S. Consul at Paris, and by the following Commissioners from the U. Slates:

Mounsell B. Field, Charles L. Fleshman, Alex. Vattemere and S. H. Wates, for the State, of New York; James Swain, A. W. Little and Mr. Penper for Pensylvanis; Dr. W. E. Johnston, for Ohio; W. J. Vatentine, for Massachusetts; D. C. Gillan, for Connectiout; Marshell Wools and Elwardd Williams, for Rhode Island; E. B. Buchanan, Consul at La Rochelle, for Maryland; R. E. Coxe for Alabams; Dr. Wm. Rade for Cal fornia; H. M. Morfit, of Washington, for Illinois, and A. G. Powers, for Louislana. Mr. Fleischman acts for New York, Virgiuis and South Carolina.

The number of exhibitors in this exhibition is about 20,000, of which 9,500 are French and 10,500 foreign. The number of exhibitors from the United States registered at this moment, is about 110. But a small proportion of the sticles have arrived, and some of these are very seriously damaged. No fair estimic can be yet made to what extent the American department will be filed, but hopes are entertained that it will not be necessary to cede back any mote of the space now placed at the disposal of the American cominix-sioners.

Graun Silvza.—The Getman silver used in the constituction of knives, forks, Spoons, &c., ronsists of two parts of copper, and one of zinc. Once must be taken in using culinary and table articles made of German silver, that they be brought into contact with so cortosive liquids, as, in addition to the poisonous effects of the essential metals, (copper and zinc.) there is frequently a small pro-justion of ersenie still remaining in the micket.

Jefferson, Franklin, and others, were perhaps obnoxious to this charge, but had merit in others respects, and passed for good Americans in their way. Then, there are the Unitarians and Universalists of our time, who pass for Infidels with some very worthy Know Nothings. Their case will very properly come under the jurisdiction of the U. S. K. N. Why is this sof Trees are not similarly affected in the bountry. I answer, it is because we destroy and personned the birds. Daguerreotypes. i Daguerrectypes.

To the public I would say that I will give one month's notice before I discontinue taking laguerrectypes for 25 cents, and I shall continue to take them as low as fifty cents for at least one teat, so that none need hurry for fear of an advance in the price of pictures. I am now taking baruerrectypes on glass and paper, as well as solid or steratorpic pictures, which the public are invited to call and examine. I have just received a great variety of lancy cases for the holidays, which I will tell from 60 to 100 per cent. below the former price.

I also keep on hand, and for sale, a large supply of Daguerrectype Apparatus, and materials of all linds.
